Remote (India & international) · Available immediately

SUMMARY

Full Stack Developer with 4+ years of experience building production web and mobile products with the MERN stack, Next.js and React Native. Shipped 5 published iOS/Android apps and 20+ client projects, including a SaaS learning platform serving 3,500+ active users. Work across the whole stack — React/Next.js frontends, Node.js/Express APIs, MongoDB/PostgreSQL, and deployment on AWS with Docker, Nginx and GitHub Actions. 100% Job Success Score and 5.0★rating on Upwork.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), Redux, React Query, Tailwind CSS, HTML5/CSS3, responsive design, Figma-to-code

Mobile: React Native, Expo, iOS & Android builds, App Store / Play Store release management, in-app subscriptions

Backend: Node.js, Express.js, NestJS, REST APIs, GraphQL, Socket.io (real-time), JWT authentication, payment integration

Databases: MongoDB, PostgreSQL, MySQL, Supabase, Firebase, DynamoDB

Cloud & DevOps: AWS (EC2, Lambda, S3, API Gateway), GCP, Docker, Nginx, PM2, SSL, Ubuntu server administration, Vercel, GitHub Actions CI/CD

Tools & Practices: Git, GitHub, GitLab, Jira, Agile/Scrum, code review, performance optimisation, AI-assisted development (Claude Code, Cursor)

Additional: Web3 (Web3.js, ethers.js, Solidity basics), Sanity CMS, SEO / Core Web Vitals

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer (MERN + React Native) | Self-employed · Remote **May 2025 – Present**

- Delivered 20+ web and mobile projects end-to-end for international clients (scoping, architecture, build, deployment, handover), maintaining a 100% Job Success Score and 5.0★rating on Upwork.
- Built and maintain [Larnity](#), a Next.js + Supabase SaaS learning platform serving 3,500+ active users: authentication, payments, dashboards and REST APIs.
- Developed [NP Rotation](#), a marketplace connecting nursing students with clinical preceptors — Next.js App Router frontend with real-time student–preceptor messaging over Socket.io, read receipts and notifications.
- Shipped product and marketing sites for [Qiggz](#) (home-services marketplace), [ASVAHR.ai](#) (SaaS), [Arden League](#) (trading community) and [hb.lance](#) (B2B consultancy) with Next.js, Tailwind CSS and Sanity CMS, focused on SEO and Core Web Vitals.
- Run production infrastructure for client apps: AWS EC2/Ubuntu (Nginx, PM2, SSL), Vercel, Docker and GitHub Actions CI/CD.

MERN Stack Developer | HMR Technologies · Surat, India (On-site)

Feb 2024 – May 2025

- Full-stack developer on the team that built and published 5 React Native apps to the Play Store and App Store: [Reel Maker](#) (5,000+ downloads, 4.4★), [Collage Maker – Mixly](#), [Fit Bharat](#) step tracker, [Nutrizee AI](#) food scanner and [AiLure AI](#) skin scanner.
- Developed React Native (Expo) screens and device integrations (camera, media library, step sensors) plus Node.js/Express + MongoDB APIs powering the apps, including AI image-analysis features and in-app subscriptions.
- Managed release cycles for both platforms — builds, signing, store submissions and updates.
- Built and maintained scalable MERN web applications; improved React performance and UX by applying memoisation, code-splitting and lazy loading.

Full Stack Developer | Tanθ Software Studio · Surat, India (On-site)

Mar 2023 – Feb 2024

- Built scalable web applications with React.js and Node.js; designed REST APIs and database schemas optimised for performance.
- Developed Web3 dApp features — wallet login, NFT marketplace and Uniswap-style token swap UI — using Web3.js, ethers.js and Solidity smart contracts.
- Worked in Agile sprints with designers and backend engineers; contributed to code reviews and delivery planning.

Frontend Developer (Intern → Full-time) | theexpo.in · Ahmedabad, India

Jan 2022 – Feb 2023

- Built responsive websites and event / business-networking platforms for national and international clients using React.js, JavaScript and Node.js.
- Integrated REST APIs with backend services and refined UI/UX with the design team; promoted from intern to full-time Frontend Developer in June 2022.
